

Your Action Plan

3 questions to answer before Monday.

Bring this to the webinar. The people who fill it in get 3× more out of the live call than the people who don't — every single time.

QUESTION 01

Where are you right now with AI in your work or business?

Tick one.

- ☐ I've heard about it but haven't really used it
- ☐ I use ChatGPT or Claude occasionally for personal stuff
- ☐ I use AI tools daily but haven't made any money with them
- ☐ I've tried to sell AI services but it hasn't clicked yet
- ☐ I'm already selling AI services and want to 10× it

In one sentence — what's stopping you from getting to the next level?

QUESTION 02

If 12 months from now you were known as “the AI person” in your city or industry — what would your life actually look like?

Don't write a business plan. Write what Monday morning would feel like. Who's emailing you? What are you charging?

QUESTION 03

What's the one belief about yourself that's been quietly holding you back?

Tick any that sound like you.

- ☐ I'm not technical enough
- ☐ I'm too late — the market is saturated
- ☐ I don't have the network, credentials, or experience
- ☐ I don't know enough about business
- ☐ Other people are smarter, faster, or better positioned than me

Circle the one that hits hardest. On Monday, watch what happens to that belief.

YOUR #1 QUESTION FOR ERIC

Write the single biggest question you want answered on the webinar. Bring it. Jamie will be watching the chat — if your question is right, he'll ask it live.
